Endotracheal Tube – Cuffed

CEDD 01

Size: 3.0 mm – 10 mm Bore with 0.5 mm Stage

Sterile, individually packed in peelable pouch pack

FEATURES

- Made from non-toxic, transparent, thermoresistant medical-grade PVC.
- High-volume, low-pressure cuff with a pilot balloon for secure positioning.
- Radio-opaque lines for tube position assessment.
- Standard 15 mm connector for ventilatory circuits.
- Nasoral tip with Murphy's eye for unobstructed airflow.

Endotracheal Tube – Plain

CEDD 02

Size: 2.5 mm–10 mm

Sterile, individually packed in peelable pouch pack

FEATURES

- Made from non-toxic, transparent, thermoresistant medical-grade PVC.
- Standard 15 mm connector with graduated markings for precise positioning.
- Nasoral tip with Murphy's eye for unobstructed airflow.

Nasopharyngeal Airways

CEDD 03

Size: 4.0 mm–8.5 mm

Sterile individually peelable pouch packed

FEATURES

- Made from soft, non-irritant medical-grade PVC.
- Kink-resistant design ensures a clear airway.
- Smooth, anatomically designed for patient comfort.

Nasal Oxygen Cannula

CEDD 04

Size: Adult 210 cm (7ft) Child 210 cm (7ft) Infant 210 cm (7ft)

Non-Sterile, individually packed in a polybag

FEATURES

- Made from soft, non-toxic medical-grade PVC.
- Multichannel tube ensures oxygen flow even if kinked.
- Proximal end connector allows easy oxygen source attachment.
- Nasal tips distribute oxygen evenly to both air passages.

Oxygen Mask

CEDD 05

Size: Adult 210 cm (7ft), Child 210 cm (7ft)

Non-Sterile, individually packed in a polybag

FEATURES

- Made from non-toxic medical-grade PVC
- Dual holes for CO₂ exhalation
- Secure nasal clip and elastic headband
- Transparent tubing for oxygen source connection

Suction Catheters

CEDD 06

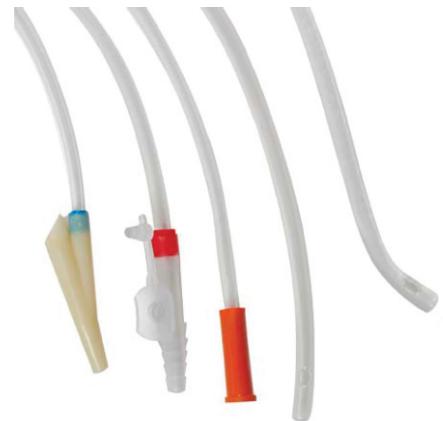

Sterile, individually packed in blister pack

Size: 5 mm-Grey, 6 mm- Green, 8 mm-Blue, 10 mm-Black, 12 mm-White, 14 mm-Green, 16-mm Orange, 18-mm Red, 20 mm Yellow

Type - Plain 500 mm L | TC 480mm L | FT 470 mm L | Automatic 500 mm L

FEATURES

- Made from non-toxic, non-irritant medical-grade PVC
- Open distal end with lateral eye for drainage
- Color-coded funnel connector for size identification
- Vacuum control available in Finger Tip & Thumb Control models

Nebuliser Kit with Face Mask

CEDD 07

Size: Adult, Paediatric

Sterile, individually packed in a polybag

FEATURES

- Transparent, non-toxic medical-grade PVC mask with holes
- 7ml nebulizer chamber with a funnel-shaped vent for effective drug delivery
- 180cm soft, kink-resistant STAR LUMEN tubing for oxygen connection
- Swivel connector for patient comfort
- Elastic strap for secure mask positioning

Twin Bore Nasal Oxygen Set

CEDD 08

Size: Adult, Neo

Non Sterile, individually packed in peelable pouch

FEATURES

- Star lumen tube prevents accidental blockage
- Soft, kink-resistant PVC tubing for durability
- Twin prong nasal tips ensure equal oxygen distribution
- 210cm tube length for flexible positioning

Connecting Tube with Yankaur Handle

CEDD 09

Size: Adult, Neo

Sterile, individually packed in peelable pouch pack

FEATURES

- Rigid, angled one-piece design with a bulbous tip for a secure grip
- Clear tips allow visual monitoring of suction fluids
- Durable tubing resists collapse in tough conditions
- Ideal for clearing thick secretions, fluids, and blood

Guedel Airways / Oropharyngeal Airways

CEDD 10

Size: 000, 00, 0, 1, 2, 3, 4 & 5

Sterile, individually packed in peelable pouch pack

FEATURES

- Semi-rigid, non-toxic polyethylene with rounded edges
- Built-in bite block prevents tongue biting and airway occlusion
- Smooth airway path for easy cleaning
- Color-coded for quick size identification

Endotracheal Tube – Subglottic Suction Line

CEDD 11

Size: 5.0 mm – 9.5 mm

Sterile individually peelable pouch packed

FEATURES

- Special medical-grade PVC tube with a suction port to reduce VAP risk
- Thin-walled, kink-resistant, thermo-sensitive design for smooth intubation and extubation
- Radio-opaque line, markings, and universal 15mm connector for easy identification and compatibility

Preformed Endotracheal Tube – Cuffed & Plain

CEDD 12

Size: 3.0 mm – 8.0 mm

Sterile individually peelable pouch packed

FEATURES

- Preformed medical-grade PVC tube reduces kinking and improves surgical access
- Smooth, tapered design with murphy eye for atraumatic intubation and extubation
- Radiopaque line, graduation marks, and universal 15mm connector for accurate positioning

Tracheostomy Tube – Cuffed & Uncuffed

CEDD 13

Size: 6.0 mm – 9.0 mm

Sterile, individually packed in blister pack

Lockable Obturator with Provision of Guidewire Introduction

FEATURES

- Medical-grade PVC tracheostomy tube, kink-resistant and thermo-sensitive
- Lockable obturator supports guide wire insertion for Seldinger technique
- Smooth, curved distal end for atraumatic intubation and extubation
- Radiopaque line, markings, and universal 15mm connector for accurate positioning

Endotracheal Tube (Uncuffed)– IVORY

CEDD 14

Size: 2.5 mm–8.5 mm

Sterile, individually packed in peelable pouch pack

FEATURES

- Thermoresistant medical-grade PVC with a 15mm connector for ventilatory circuits
- Graduated markings, radio-opaque line, and Murphy's eye for safe intubation
- Naso-oral tip suitable for both nasal and oral use

Endotracheal Tube (Cuffed)- IVORY

CEDD 15

Size: 2.5 mm-8.5 mm

Sterile, individually packed in peelable pouch pack

FEATURES

- Thermoresistant medical-grade PVC with a 15mm connector for ventilatory circuits
- High-volume, low-pressure cuff with pilot balloon for secure positioning
- Radio-opaque line, graduated markings, and Murphy's eye for safe intubation
- Naso-oral tip suitable for both nasal and oral use

Anesthetic Face Mask

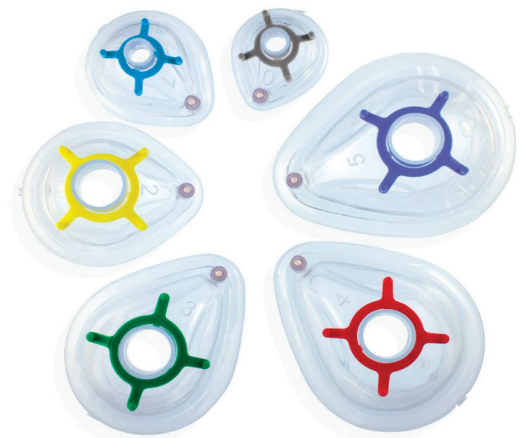

CEDD 16

Size: 0,1,2,3,4,5,6

Sterile, individually packed in a polybag

FEATURES

- Transparent medical-grade PVC mask with a clear hood for visibility and safety
- Super soft inflatable cuff ensures a comfortable, secure seal
- Designed for anesthesia and resuscitation use

Ambu Bag - Resuscitator

CEDD 17

Size: Adult

Sterile, individually packed in a polybag

Adult silicone resuscitators (30kg+) are durable, non-toxic, and resistant to aging. The set includes oxygen tubing, a face mask, a reservoir bag, a double-ended bag with a valve, and accessories.

FEATURES

- 1600ml self-inflating bag with reservoir valve
- Type "L" valve opens above 60cm H₂O pressure
- Includes facemask, oxygen tubing & reservoir bag

Ambu Bag – Resuscitator

CEDD 18

Size: paediatric

Sterile, individually packed in a polybag

Pediatric silicone resuscitators (20-30kg) are durable, non-allergic, and resistant to aging. The set includes oxygen tubing, a face mask, a double-ended bag with a valve, and a reservoir bag.

FEATURES

- 1000ml self-inflating silicone bag with reservoir valve.
- Type “L” nonrebreathing valve (60cm H₂O limit).
- Includes Size 3 facemask, 1.5m tubing, and 2600ml reservoir bag.

Rebreathing Bags

CEDD 19

Size: 0.5ltrs, 1.0ltrs, 2.0ltrs, 3.0ltrs

Sterile, individually packed in a polybag

Breathing bags are used to temporarily assist patients in breathing, especially during anesthesia. They work with a face mask placed over the patient's mouth and nose, connected to an oxygen source. When the bag is squeezed, it pushes oxygen into the lungs, ensuring proper ventilation.

FEATURES

- Thin, durable design for comfortable usage in various sizes.
- Hourglass-shaped bag reduces hand fatigue and provides a firm grip.
- Tri-pleat design ensures a better fit over the patient's face.
- Available in sizes: 0.5L, 1.0L, 1.5L, 2.0L, and 3.0L.

Infant T- Piece Anesthetic Circuits

CEDD 20

Size: Pediatric

Sterile, individually packed in a polybag

Jackson Rees Pediatric Circuits feature a unique water trap for efficient drainage and are ported for temperature and capnography monitoring. Designed for pediatric anesthesia, they offer low resistance, minimal dead space, and optimal moisture collection. All accessories are quality-approved, ensuring safe and sterile use.

FEATURES

- Facemasks (Sizes 1 & 2) with 15mm/22mm angle mount and 15mm Ayre's T.
- 15cm x 11mm corrugated rubber hose with 15mm M/F hose mount.
- 0.5L breathing bag with bleed valve, 1.5m PVC tubing for fresh gas.
- 23mm male plug-in mount, 23mm/23mm F/F adapter, carrying case.

Basic Ventilator Circuits

CEDD 21

Size: Adult, Pediatric

Sterile, individually packed in a polybag

A ventilator circuit connects the patient's lungs to the mechanical ventilator, ensuring safe and efficient ventilation. Econ offers high-quality circuits with ISO-standard connectors, compatible with most ventilators and humidifiers. Customization is available to meet individual needs.

FEATURES

- High transparency & flexibility for easy handling.
- Sterile & low compliance for safe, efficient ventilation.
- ISO-standard connectors fit most ventilators.
- Customizable to meet specific needs.

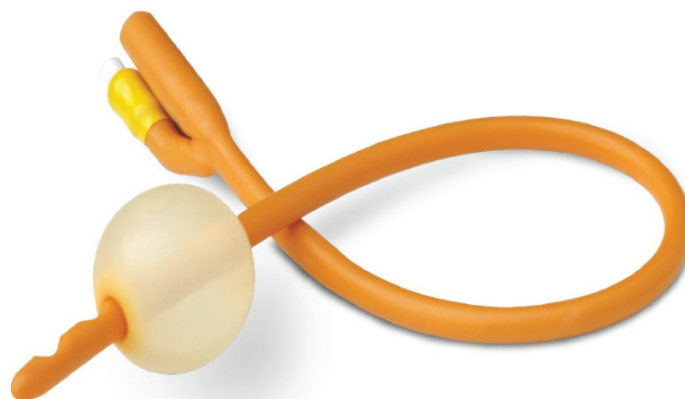

Foley Balloon Catheter

CEDD 22

SIZE: 6 mm–26 mm, Two Way | Three Way,
Sterile, individually packed in peelable blister pack

FEATURES

- Natural latex rubber with a siliconised smooth surface for atraumatic intubation.
- Coned distal end with smooth eyes for minimal tissue trauma.
- Ultra-thin, highly elastic balloon for secure placement.
- Non-return valve ensures smooth inflation and deflation.

Optimal eyes

Smooth, well-designed eyelets ensure atraumatic introduction and effective drainage.

Strong drainage funnel

Kink-resistant design provides a secure connection to the drainage bag.

Pressure-resistant balloon

Easily inflates and deflates for maximum patient safety.

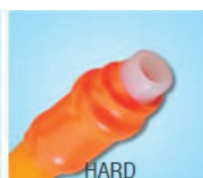

Large drainage lumen

Ensures fast and efficient drainage with a round channel to minimize encrustation and clogging.

Reinforced catheter shaft

Prevents collapse and enhances effective suctioning.

Inflation valve

Available in soft and hard options to ensure proper balloon inflation.

Siliconized catheters

Silicone-coated surface allows smooth passage through the urethral meatus, ideal for short-term use.

FEMALE CATHETER	
Size in FR	12-24
Balloon Capacity	15ml, 15-30ml
Length	Approx. 25 cm

PEDIATRIC CATHETER		
Size in FR	6	8-10
Balloon Capacity	1.5ml	3-5ml
Length	Approx. 30cm	

TWO WAY			
Size in FR	12-14	16-24	26-30
Balloon Capacity	5-15ml 15-30ml	5-15ml 30-50ml & 30ml	30-50ml & 30ml
Length	Approx. 40 cm		

THREE WAY	
Size in FR	16, 18, 20, 24, 26, 28 & 30
Balloon Capacity	30ml & 30-50ml
Length	Approx. 40 cm

SIZES	
FR	Colour Code
6	Brown
8	Black
10	Grey
12	White
14	Green
16	Orange
18	Red
20	Yellow
22	Violet
24	Blue
26	Pink
28	Brown
30	Black

All Silicon Foley Balloon Catheter

CEDD 23

SIZE: 6 mm–26 mm Two Way | Three Way,

Balloon Cap: 5 cc, 30 cc & 50 cc

Sterile, individually packed in peelable blister pack

FEATURES

- 100% silicone with a smooth, biocompatible surface for comfort.
- Symmetrical balloon for secure bladder anchoring.
- Two & three-way options with a color-coded valve.

Nelaton Catheter

CEDD 24

Size: 6 mm–20 mm, Male 370 mm 400 mm Female 170 mm 200 mm

Sterile, individually packed in peelable blister pack

FEATURES

- Made from medical-grade, nontoxic PVC with a radio-opaque line for X-ray visibility.
- Coned distal end with two lateral eyes ensures maximum drainage.
- Color-coded funnel-shaped connector for easy urine bag attachment.

Urine Collecting Bag

CEDD 25

Size: Bag Capacity 2000 ml, Tube Length 90cm

With or without Hanger | With String

Sterile, individually packed in Tear H.M pack

FEATURES

- 2000ml PVC bag with scale.
- Non-return valve, 90cm kink-resistant tube.
- Top/bottom outlet, molded handle.

Urine Collecting Bag (Pediatric)

CEDD 26

Size: 100 ml

Sterile, Individually packed in peelable pouch pack

FEATURES

- Hypoallergenic adhesive ensures secure fixation.
- Easy-to-read graduated scale.
- Soft, non-toxic medical-grade PVC.
- Designed for infant and pediatric urine collection.

Urine Collecting Bag with Volume Meter

CEDD 27

Size: Bag Capacity 2000 ml, Tube Length 90 cm

Sterile, individually packed in peelable blister pack

FEATURES

- Made from medical-grade soft PVC sheeting.
- Non-return valve prevents backflow.
- 90 cm kink-resistant tube with a universal connector.
- Graduated bag with top/bottom outlet and molded handle.

Leg Bag

CEDD 28

Size: 750 ml, 500 ml

Sterile, individually packed in peelable blister pack

FEATURES

- Designed for day & night use for incontinence.
- Made from soft clinical-grade PVC sheeting.
- Features a bottom outlet for easy drainage.
- Non-return valve prevents urine backflow.
- Clear, easy-to-read printed scale.
- Optional elastic straps for secure thigh attachment.

Urine Collecting Bag with Volume Meter Three Chambers System

CEDD 29

Size: Bag Capacity 2600 ml, Measuring Meter 400ml,
Tube Length 120-170cm

Sterile, individually packed in peelable blister pack

FEATURES

- 400ml measuring meter for accurate collection.
- 120cm-170cm inlet tube with sampling port.
- Bed-sheet clamp & hanger for secure fixing.
- Drainage control knob for easy release.
- Anti-reflux drip chamber prevents backflow.
- Fine scaling for precise measurements.
- Dual sampling points at connector & glass.
- Germ-proof filter, flexible tube, EO sterilized.

Urine Collecting Bag

CEDD 30

Size: Bag Capacity 2000 ml, Inlet Tubing 8/32" x 39"
Sterile, individually packed in Tear H.M pack

FEATURES

- Bottom draining 'T' valve with anti-reflux protection.
- Universal hanger with button lock and Robert clamp.
- Latex-free with inlet sampling port and cap.

Male External Catheter (Penile Sheath)

CEDD 31

Size: Small 20 mm, Medium 25 mm, Large 30 mm,
Extra Large 35 mm

Sterile, individually packed in peelable blister pack

FEATURES

- Natural latex rubber catheter with adhesive strip for secure fixing.
- Designed for urine drainage in incontinent male patients.

Y Junction Set / T.U.R. Set

CEDD 32

Size: Tube Length as per requirement

Sterile, individually packed in peelable blister pack

FEATURES

- Designed for continuous irrigation during TUR procedures.
- Y-shaped connector enables easy solution changes.
- Slide control clamp ensures quick bottle swaps.
- Flexible latex tube for easy endoscope connection, non-toxic & pyrogen-free.

Thoracic Trocar Catheter

CEDD 33

Size: 8-16(230mm), 20-36(390mm)

-Sterile, individually packed in peelable blister pack

FEATURES

- Made from non-toxic, medical-grade PVC.
- Snugly fixed over the trocar for stability.
- Smooth tapered tip for easy insertion.
- Large smooth eyes ensure efficient drainage.
- Depth markings at 5, 10, 15, and 20 cm for precise placement.
- Tapered connector for easy attachment to drainage bottle/bag.

Drainage Catheter

CEDD 34

Size: 12-36 (450mm)

Sterile, individually packed in peelable blister pack

FEATURES

- Made from non-toxic, medical-grade PVC.
- Smooth, round distal end with large drainage eyes.
- Depth markings every 2 cm for precise placement.
- Tapered tongue connector for better grip and penetration, also available in right angle.

Abdominal Drainage Kit

CEDD 35

Size: 2000ml with graduated scale

Sterile, individually packed in peelable blister/HM

Pouch pack

FEATURES

- Soft, smooth catheter with large atraumatic eyes for efficient drainage.
- Radio-opaque line for X-ray visibility and 2 cm depth markings.
- Universal taper connector for easy drainage bag attachment.
- Made from extra-strong sheeting for durability.
- Specially designed handle for upright tube holding.

Chest Bag/Water Sealed Drainage System

CEDD 36

Size: 1000ml with graduated scale

Sterile, individually packed in peelable blister/HM

Pouch pack

FEATURES

- Non-toxic PVC with under-water sealed drainage.
- Pyrogen-free for safe use.
- Universal hanger for secure placement.

Closed Wound Suction Unit

CEDD 37

Size: 10-18 FG (chamber capacity 800-500ml)

Individually packed in peelable blister/HM Pouch pack

FEATURES

- Radio-opaque catheter with multi-perforations for efficient drainage.
- Allows use of one or two catheters simultaneously.
- Flexible bottle chamber enables one-person suction activation.
- Available in various sizes with matching needle.

Yankaur Suction Set with Standard Handle

CEDD 38

Size: length-2.5m, diameter-9.0mm

Sterile, individually packed in peelable blister/HM

Pouch pack

FEATURES

- Kink-resistant tube ensures uninterrupted suction flow.
- Soft connectors at both ends for easy attachment.
- Comes with a standard round tip handle.
- Compatible with or without vent control.

Colostomy Bag

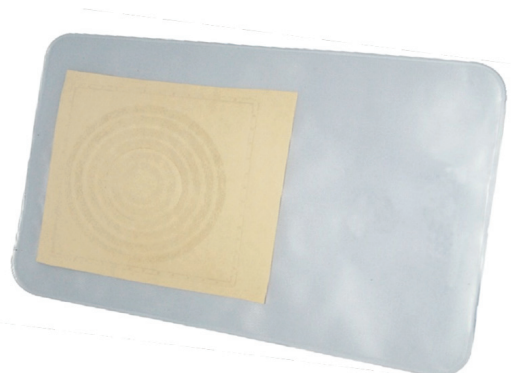

CEDD 39

Size: Bag Size -250 mm x 140 mm, Hole Diameter-20, 30, 40, 50 mm

Non-Sterile, pack of 10

FEATURES

- Made from clinical-grade PVC sheet.
- Hypo-allergic adhesive prevents skin maceration.
- Customizable hole diameter and bag size.
- Soft and skin-friendly for patient comfort.
- Secure adhesion for reliable usage.

Surgical Gloves (Powdered / Powder Free)

CEDD 40

Size: 6.0, 6.5, 7.0, 7.5, 8, 8.5 & 9

Weight:-17 gm & 21 gm

Cuff Length: -270 mm-290 mm

FEATURES

- High-quality latex with low protein & allergenic risk.
- In-line leaching ensures minimal bio-burden.
- Anatomical shape for comfort & reduced fatigue.
- Micro-rough grip, USP-grade powder, beaded cuff.

Examination Gloves (Powdered / Powder Free)

CEDD 41

Size: S/M/L, (Cuff Length: -240 mm -280 mm)

Dispenser Box of 100pcs

FEATURES

- Clean, hygienic manufacturing ensures low bio-burden.
- Excellent donning with full anatomic shape.
- Reduces hand fatigue for long procedures.
- Micro-rough surface for extra grip.
- Lightly powdered with USP-grade corn starch, beaded cuff.

Elbow length Gloves

Size: (Cuff Length: -350 mm-400 mm) Powdered and Powder Free

Examination – Small, Medium, Large | CEDD 42.1

Surgical Hand Specific Type 7, 7½, 8 & 8½ | CEDD 42.2

FEATURES

- Made from high-quality natural rubber latex.
- Thiuram-free for lower allergenic potential.
- Full anatomic shape reduces fatigue during long use.
- Micro-rough surface for better grip, beaded cuff for a secure fit.
- Lightly powdered with USP-grade absorbable corn starch.

Nitrile Examination Gloves

CEDD 43

Size: S, M, L (Cuff Length: -240 mm-280 mm) Powdered and Powder Free

Sterile/Non-Sterile, one pair walletted and folded in a peel to open or Cut to Open pouch or Dispenser

FEATURES

- Made from superior nitrile formulation for a softer feel.
- Latex-free, eliminating allergy concerns.
- Full anatomic shape reduces fatigue during long use.
- Textured finish for better grip, beaded cuff for a secure fit.

Vinyl Examination GLOVES

CEDD 44

Size: Extra Small, Small, Medium & Large, Extra Large
Dispenser Box of 100 pcs

FEATURES

- Made from 100% synthetic PVC, latex-free.
- Ambidextrous, non-sterile, with a beaded cuff.
- Odour-free, powder-free, and smooth finish.
- Withstands IPA (Iso Propyl Alcohol) washing.

Surgical Blades

CEDD 45

Sizes: 10, 10A, 11, 11P, 12, 12B/12D, 13, 14, 15, 15T, 15C, 15A, 16, 17, 40 (Fits handle numbers 3, 3L, 5, 7 & 9).

Sizes: 18, 19, 20, 21, 22A, 22, 23, 24, 25, 26, 36 (Fits handle numbers 4, 4L & 6).

Packaging: Sterile V.C.I paper and foil packed.

FEATURES

- Disposable & Ready to Use: Ensures convenience and hygiene.
- Sterile Packaging: Maintains safety and prevents contamination.
- Material Options: Available in Stainless Steel and Carbon Steel for different surgical needs.
- Sharp & Precise: Designed for accuracy in surgical procedures.

Disposable Scalpels

CEDD 46

Size: 10, 10 A, 11, 11 P, 12, 12 B, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26

Sterile packed in peel pack medical grade paper

FEATURES

- Disposable & Sterile: Ready to use for hygienic procedures.
- Stainless Steel Blade: Tempered for durability.
- Plastic Handle: Ensures a secure grip.

Karman Cannula

CEDD 47

Size: 4mm – 12mm

Sterile, individually packed in peelable blister/HM Pouch pack

FEATURES

- Made from non-toxic plastic
- Smooth catheter surface, Rounded Tip
- Smooth edged eye/eyes near the tip for trauma free insertion
- With universal connector for connecting to suction apparatus
- Available in sizes 4 mm – 12 mm

MTP Syringe

CEDD 48

Size: Double valve/single valve

Sterile, individually packed in peelable blister/HM Pouch pack

FEATURES

- Made from polypropylene polymer.
- Designed for suction in surgical abortion.
- Provides high vacuum suction.
- Ensures efficient procedure execution.

Cytobrush /Endocervical Brush

CEDD 49

Sterile, individually packed in peelable blister/HM Pouch pack

FEATURES

- Used for Pap smear screening.
- Includes brush and wooden spoon strip.

Intra Uterine Insemination (IUI)

CEDD 50

Sterile, individually packed in peelable blister/HM Pouch pack

FEATURES

- Used for introducing washed spermatozoa into the uterus.
- Sterile by EO.
- Comes with a syringe.

Infant Mucus Extractor

CEDD 51

Size: Chamber Capacity 25 ml

Catheter Size – 10 FG Black, 12 FG White, 14 FG Green

Sterile, individually packed in Peelable pouch pack

FEATURES

- Made from nontoxic, medical-grade polymer.
- Transparent chamber for content examination.
- Round open tip for non-traumatic intubation.
- Funnel-shaped connector for easy suction equipment attachment.
- Available with or without a filter.

Umbilical Cord Clamp

CEDD 52

Sterile, individually packed in peelable pouch pack

FEATURES

- Made from nontoxic, medical-grade polymer.
- Permanent locking system prevents reopening.
- Finger grip for easy handling and locking.
- Also available for catheter clamping.

Umbilical Catheter

CEDD 53

Size: 4, 5, 6, 8, 10 FG (length 35 cm)

Sterile, individually packed in peelable pouch pack

FEATURES

- Made from nontoxic, medical-grade PVC.
- Smooth round tip ensures non-traumatic insertion.
- Radio-opaque line for radiological position check.
- Markings at every cm for depth measurement.
- Proximal end fitted with Luer Female connector.

Enteral Feeding Bag

CEDD 54

Size: 1000 ml capacity graduated bag with long tubing

Sterile, individually packed in peelable pouch pack

FEATURES

- Rigid neck for easy filling and handling.
- Large cap opening with clear graduations.
- Bottom exit port ensures complete drainage.
- Non-IV compatible connector.

3 Way Stop Cock

CEDD 55

Sterile, individually packed in peelable pouch pack

FEATURES

- Three-arm handle for smooth operation.
- Minimal residual fluid volume.
- Stopcock with two female and one male luer lock ports.
- Rotatory lock ensures a secure connection.
- Made from non-toxic, medical-grade material.

3 Way Stop Cock – With Extension Line

CEDD 56

Size: 25/50/100/200 cm Extension lengths

Sterile, individually packed in peelable pouch pack

FEATURES

- Disposable, sterile, and non-pyrogenic.
- Made from non-toxic PVC to reduce irritation and infection.
- Minimizes movement at cannulation and extends the infusion pathway.
- Available with a built-in 3-way stopcock and male luer lock.

P.E. Pressure Monitoring Line

CEDD 57

Size: 110 cm, 150 cm, 200 cm (0.90 ml 1.40 ml 1.80 ml)

Sterile, individually packed in peelable pouch pack

FEATURES

- Disposable, sterile, and non-pyrogenic.
- Made from non-toxic medical-grade PVC.
- Withstands high pressure up to 580 PSI.
- Suitable for high-pressure monitoring and syringe infusion pumps.
- Fitted with male/female & male/male Luer locks for secure connection.
- Kink-resistant tubing, available in various lengths.

I.V. Cannula with Injection Port

CEDD 58

Size: 14 G, 16 G, 17 G, 18 G, (45 mm), 20 FG(32 mm), 22 FG (25mm), 24FG, 26G (19mm)

Sterile, Individually Packed in Peelable Blister Pack

FEATURES

- Smooth PTFE cannula for non-traumatic intubation.
- Super sharp needle with dual cutting edges.
- Injection port with non-return valve for extra medication.

Safety IV Cannula

CEDD 59

Size: 14G, 16G, 17G, 18G, (45mm), 20FG(32mm),
22FG(25mm), 24FG, 26G (19mm)

Sterile, Individually Packed in Peelable Blister Pack

FEATURES

- Safety mechanism activates passively and irreversibly.
- Needle tip locks inside a plastic cage after use.
- Cage prevents needle from re-exposure, reducing injury risk.
- Injection port with one-way silicone valve.

I.V. Catheter for Paediatric/Neonates Use

CEDD 60

Size: 24 FG, 26 FG

Sterile, Individually Packed in Peelable Blister Pack

FEATURES

- Safety mechanism activates passively and irreversibly.
- Needle tip locks inside a plastic cage after use.
- Prevents needle re-exposure, reducing injury risk.

IV Cannula without Injection Port & without Wings

CEDD 61

Size: 14G, 16G, 17G, 18G, (45mm), 20FG(32mm), 22FG(25mm),
24FG, 26G (19mm)

Sterile, Individually Packed in Peelable Blister Pack

FEATURES

- Siliconized stainless steel needle ensures easy, painless puncture.
- Biocompatible FEP material with a smooth outer surface.
- Allows quick visualization of venous return.
- Soft, transparent needle cover prevents accidental damage.

I.V. Infusion Set – Vented

CEDD 62

Size: 21G vein needle, Bulb Latex, 2.7 x 1500 mm pvc tube

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- In-built air vent with molded drip chamber.
- Extra soft, kink-resistant tube.
- Molded latex bulb for extra medication.
- 6% taper luer with accurate flow control.
- Available with Luer Lock and Luer Slip needle options.

I.V. Infusion Set – Vented/Non-Vented (with Y Connector & Luer Lock)

CEDD 63

Size: 21 G vein Needle, Tube Latex, 2.7 x 1500 mm pvc tube

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- Sharp needle, secure connector for all spikes.
- Roller clamp for precise flow, Luer lock/slip options.
- Drip chamber with filter (20 drops/ml), sterile packed.
- Tube & Bulb Latex options, Needle-Free Y Site available.

Blood Administration Set

CEDD 64

Size: 18G vein needle Tube Latex, 2.7 x 1500 mm pvc tube

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- Single-use blood set with 150/170-micron filter.
- Swivel luer-lock, kink-free tubing (20 drops/ml).
- Ergonomic spike, non-toxic, precise flow.

I.V. Fluid Infusion Set with Flow Regulator

CEDD 65

Size: tube length-200cm

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- Flow control: 5 ml/hr – 250 ml/hr manually.
- Sharp spike for easy insertion.
- Roller clamp & self-sealing latex bulb for regulation.
- Disposable, sterile, and non-pyrogenic.

I.V. Fluid Flow Regulator Extension Set

CEDD 66

Size: 45Cm,

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- Flow control: 5 ml/hr – 250 ml/hr manually.
- Built-in Y-connector for extra medication.
- Two-hand operation prevents accidental tampering.
- Male & female luer lock for compatibility.
- Disposable, sterile, and non-pyrogenic.

Extension Line with male and female ends

CEDD 67

Size: 5,7,10,25-250 cm (diameter 2.8-4.0)

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- Medical-grade PVC construction.
- Reduces movement at the cannulation site.
- Smooth internal surface minimizes turbulence.
- Disposable, sterile, and non-pyrogenic.

High Pressure Extension Line

CEDD 68

Size: 5,7,10,25-250 cm (diameter 1.3-3.0)

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- Withstands pressure up to 40 kg/cm².
- Secure male and female luer locks.
- Smooth internal surface minimizes turbulence.
- Disposable, sterile, and non-pyrogenic.

Measured Volume Burette Set

CEDD 69

Size: burette capacity-100,150 ml (needle size-23 G x 1.0)

Sterile, individually packed in HM Pouch pack

FEATURES

- Flexible graduated burette with 100/150 ml marking.
- Sharp beveled spike, 60 drops/ml, air inlet with bacterial filter.
- Disc filter, C-clamp, and soft roller clamp for flow regulation.
- Kink-resistant tubing with self-sealing latex bulb.
- Multiple options: latex/Y-bulb, luer slip/lock, vented/beveled spike.

Injection Stopper

CEDD 70

Sterile/Non-Sterile HM Pouch Pack

FEATURES

- One-way valve allows drug administration without unscrewing.
- Integrated stopper for secure use.
- Available in latex and latex-free options.

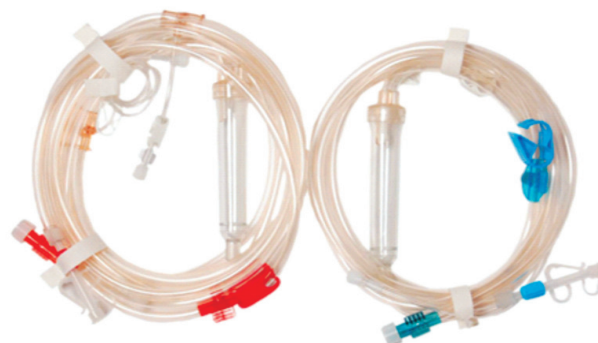

Hemodialysis Blood Tubing Set

CEDD 71

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- Safe blood extraction and return.
- Arterial & venous lines with secure fit.
- Reduces foaming, improves air removal.
- Color-coded clamps, sealed connectors.
- Kink-resistant tubing for fast priming.

Peritoneal Dialysis Set

CEDD 72

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- Non-toxic, kink-resistant PVC tubing.
- 'Y' shape set for dialysis solution administration.
- Four control clamps for easy solution management.
- Adapter for secure catheter connection.

Scalp Vein Set

CEDD 73

Size: 18, 19, 20, 21, 22, 23, 24 & 25 Needle length: 20 mm

Sterile, medical grade paper pouch with standard plastic film

FEATURES

- Flexible butterfly wings for pediatric & geriatric use.
- Soft wings minimize pain, ideal for single-push injections.
- Ultra-sharp, siliconized stainless steel bevel tip needle.
- 30 cm kink-resistant tubing with Luer female connector.
- Non-toxic, non-irritant tubing prevents kinking or coiling.

Blood Lancet

CEDD 74

Sterile, individually packed in medical grade paper pouch

FEATURES

- Manual blade for limited skin incision & blood collection.
- Made from medical-grade stainless steel & polymer.
- Super sharp tip for instant incision.

Blood Lancet Steel

CEDD 75

Sterile, individually packed in medical grade paper pouch

FEATURES

- Ultra-sharp needle for minimal patient trauma.
- Fine grip for easy handling & disposal.
- Used for limited skin incision & blood collection.
- Made for single-use safety.

Safety Lancet

CEDD 76

Sterile, fully covered and protected with a sterility cap

FEATURES

- No lancet loading, easy one-hand operation.
- Intuitive two-step activation.
- Ultra-sharp needle for precise penetration.
- Requires only a single lance.

Sterile Hypodermic Single Use Syringe

CEDD 77

Size: 1ml, 2ml, 3ml, 5ml, 10ml, 20ml & 50ml

Sterile, individually packed in Medical Grade Blister & Ribbon Pack

FEATURES

- Non-toxic, non-pyrogenic, sterile for single use.
- Transparent plunger, smooth sliding.
- Latex-free elastomer gasket.
- Luer mount with/without needle.
- Ultra-sharp needle for minimal pain, ISO 7886 compliant.

Insulin Syringe

CEDD 78

Size: 1ml 40U – Insulin, 1ml 100U – Insulin, Needle 29G–31G

Sterile, individually packed in Medical Grade Blister & Ribbon Pack

FEATURES

- Non-toxic, non-pyrogenic, sterile single-use.
- Latex-free needle, low dead space.
- 20% thinner needle (31G) for less penetration force.
- Available in 6mm and 8mm lengths.

L. P. Spinal Needles

CEDD 79

Size: G 17– 27(Standard Length: 50–110mm)

Sterile, individually packed in medical grade blister pack

FEATURES

- Suitable for spinal anesthesia with high flow rate for fast CSF flashback.
- Clear hub for easy CSF or blood visualization.
- Available in Whitacre Pencil Point or Quincke Point, with or without introducer.

Intravenous Infusion System (With Multiple Stopcocks In line)

CEDD 80

Sterile, individually packed in medical grade blister pack

FEATURES

- Durable polycarbonate body with polyethylene lever for smooth operation.
- Large internal lumen, resistant to high pressure and chemicals.
- Clear flow direction for easy identification.

Salem Sump Tube/Irrigation Tube Gas

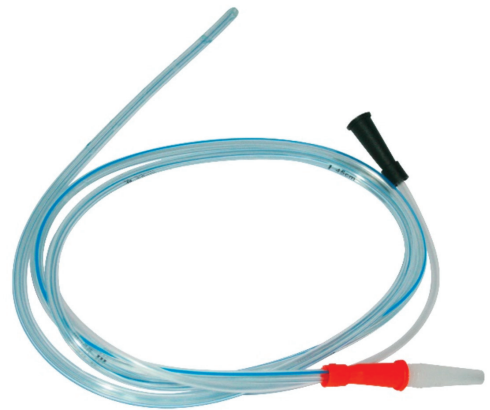

CEDD 81

Size: 12–20 FG (Total length 122 cm)

Sterile, individually packed in peelable pouch pack

FEATURES

- Double lumen tube for air vent after drainage.
- Coned end with ten lateral eyes.
- Markings for precise placement.
- Universal Funnel & Double Taper Connector.

Levin's Tube / Stomach Tube

CEDD 82

Size: 6 – 20 FG

Sterile, individually packed in peelable pouch pack

FEATURES

- Nontoxic medical-grade PVC.
- Coned end with four lateral eyes for drainage.
- Markings for accurate placement.
- Radio-opaque line for position check.
- Universal Funnel Connector for easy extension.

Ryle's Tube with Luer Mount

CEDD 83

Size: 6–20 FG (Total length 105 cm)

Sterile, individually packed in peelable pouch pack

FEATURES

- Used for feeding or aspiration of intestinal secretions.
- Nontoxic medical-grade PVC.
- Coned distal end with sealed steel balls for easy insertion.
- Four lateral eyes for efficient drainage.
- Markings at 50, 60, and 70 cm for accurate placement.
- Radio-opaque line for X-ray visualization.

Infant Feeding Tube

CEDD 84

Size: 4–10 (length 52 cm)

Sterile, individually packed in peelable pouch pack

FEATURES

- Nontoxic medical-grade PVC.
- Smooth coned distal end for non-traumatic intubation.
- Two lateral eyes for efficient drainage.
- Marked at 20 cm for accurate placement, with optional 5–40 cm graduation.
- Radio-opaque line for X-ray visualization.
- Luer mount for feeding device connection.

Rectal Catheter

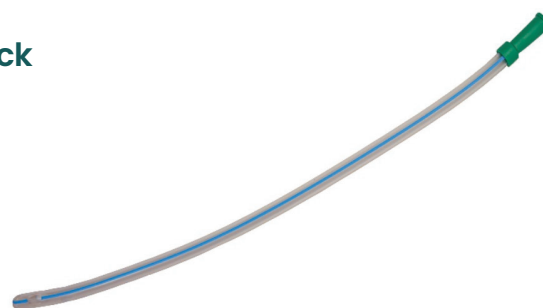

CEDD 85

Size: 12–24 FG (length–40 cm)

Sterile, individually packed in peelable pouch pack

FEATURES

- Medical-grade PVC with open distal end and one lateral eye for drainage.
- Funnel connector with color coding for easy size identification and suction connection.

Kehr's "T" Tube

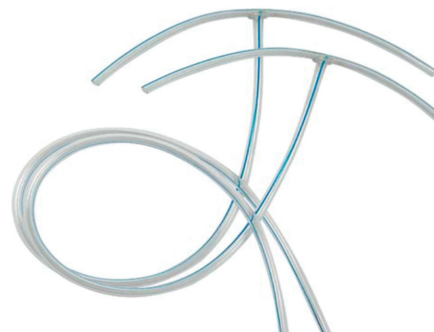

CEDD 86

Size: 10 FG–18 FG (length 20* 60 cm)

–Sterile, individually packed in peelable pouch pack

FEATURES

- Soft, medical-grade PVC for safety.
- Radio-opaque line for X-ray visibility.
- Smooth surface prevents clogging.
- Available in natural and latex rubber.

Hypodermic Needles

CEDD 87

Sterile, individually packed in Medical Grade Blister & Ribbon Pack

FEATURES

- Non-toxic, medical-grade, color-coded needle hub.
- Three-face profile with lancet point for precision.
- Burr-free design ensures smooth penetration.
- Minimal pain on insertion.
- Sterile, non-pyrogenic, blister-packed for single use.

Colour Code of Hub	Guage	OD (MM) ± 0.05MM
White	16G	1.6MM
Pink	18G	1.2MM
Cream	19G	1.1MM
Yellow	20G	0.9MM
Green	21G	0.8MM
Black	22G	0.7MM
Blue	23G	0.6MM
Medium Purple	24G	0.5MM
Orange	25G	0.5MM
Brown	26G	0.4MM

Hand Sanitizer Gel/Liquid

CEDD 88

The Instant Hand Sanitizer controls microbial contamination commonly found in clean room environments and evaporates quickly leaving no sticky residues.

COMPOSITION

- Ethyl Alcohol IP 66.50% v/v/70%
- Denatured with Iso-Propyl Alcohol IP 3.5% v/v
- Gel Base q.s

PACKAGING UNIT

- 50 ml Pet bottle with flip top cap
- 100 ml pet bottle with flip top cap
- 250 ml
- 500 ml Bottle
- 1L Bottle

Valved Inhaler Spacer

CEDD 89
250 ml

Suitable for patients with asthma and bronchitis. Improved technique of spray inhalation medicament (inhaler). Increases lung deposition of the drug. The spacer tube is bi-medicate and designed to help improve the spray application technique of medicament through a metered-dose inhaler (MDI), commonly known as a "puffer."

FEATURES

- Universal plug, compatible with all market firecrackers.
- Available in three sizes: small, medium, and large; soft and non-toxic.
- One-way silicone valves on the nozzle.
- 250 ml capacity.

Chest Drainage System/ Under Water Sealed Drainage System

CEDD 90

Capacity: 2000ml, 1200ml and 500ml

FEATURES

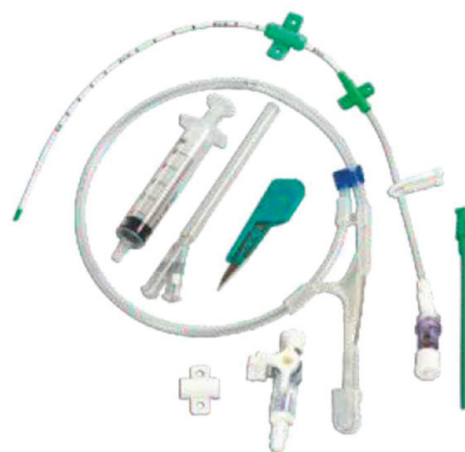

- Underwater seal drainage system.
- Double chamber compact unit with 2L capacity for cardiac and thoracic procedures.
- Easy-to-read markings for accurate drainage volume measurement.
- Clearly marked initial level ensures proper underwater seal.
- Suction port for easy connection to a suction unit.
- Kink-resistant large bore tubing ensures unrestricted flow.
- Equipped with metal hangers and a floor stand for convenience.
- Packaging: Box of 1 / Master Box of 10.

Single Lumen Central Venous Catheter (Seldinger technique)

CEVC 01

FEATURES

- Versatile Use – Ideal for hyperosmolar solutions, CVP measurement, dialysis, and rapid fluid infusion.
- Polyurethane Material – Soft, kink-resistant, biocompatible, and durable.
- Elastic Memory – Retains shape for reliable performance.

Double Lumen Central Venous Catheter (Seldinger technique)

CEVC 02

FEATURES

- Suitable for hyperosmolar solutions, CVP monitoring, dialysis, plasmapheresis, and rapid fluid infusion.
- Soft, kink-resistant polyurethane catheter with high biocompatibility and durability.
- Dual, non-communicating lumens within a single catheter body.
- Proximal lumen for blood sampling, medication, and administration.
- Distal lumen for CVP monitoring, blood administration, and medication.
- Minimizes the need for multiple venipunctures.
- Exit ports spaced proportionally to the catheter's French size.
- Coaxial design enhances central lumen diameter for high flow.
- Sterile, disposable, and non-pyrogenic.
- Secure blister packaging.

7.0	16	2.5	30	45	4761302	10/60

Triple Lumen Central Venous Catheter (Seldinger technique)

CEVC 03

FEATURES

- Ideal for hyperosmolar solutions, CVP monitoring, dialysis, plasmapheresis, and rapid fluid infusion.
- Soft, kink-resistant polyurethane catheter with excellent biocompatibility and durability.
- Three non-communicating lumens for separate vascular access.
- Dedicated lumens: proximal for blood sampling/medication, distal for CVP monitoring, medial for total parenteral nutrition.
- Coaxial design enhances lumen diameter for high flow and reduces multiple venipunctures.
- Sterile, disposable, and securely blister-packed.
